

# Heating, Air Conditioning And Appliance Services

Name: \_\_\_\_\_

Course: Home Safety & Awareness

## Follow your technician like a delivery!

You can track your appointment in real time. Just like ordering pizza or using Uber Eats, you'll be able to see where your technician is and when they're getting close.

- Where is the technician starting their route?
- What stop comes before they reach the museum?
- Which direction is the truck traveling?
- Where do you think the last stop on the route is?
- Can you follow the dotted line to the tan house?
