

Something doesn't feel right...

Is your home too hot or too cold?

But nothing is happening

You turn on your AC or heater...

That doesn't sound normal

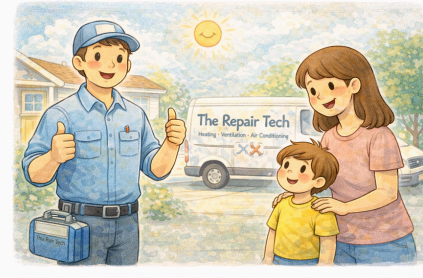

Or maybe you hear a weird noise...

But it's still not working

You try to fix it...

That's where we come in!

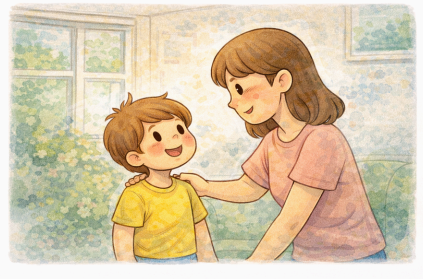

The Repair Tech is here to help

Tell a parent or trusted adult

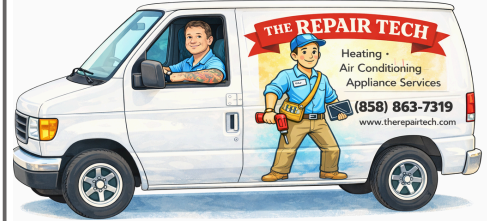

They can help you call a professional

That's okay!

You don't have to figure it out alone

But something isn't working

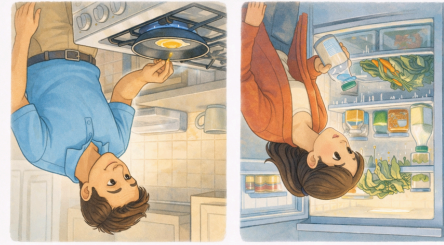

2

You're hungry... or trying to get ready...

Or the stove won't turn on

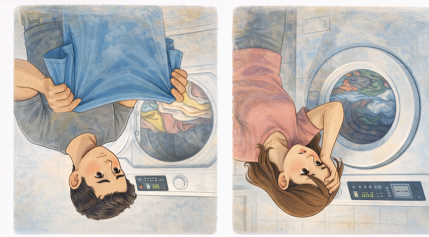

3

The fridge isn't cold ...

Or the dryer won't dry your clothes

4

The washer stops mid-cycle...

You try again... and again...

5

You press buttons...

Still not working?

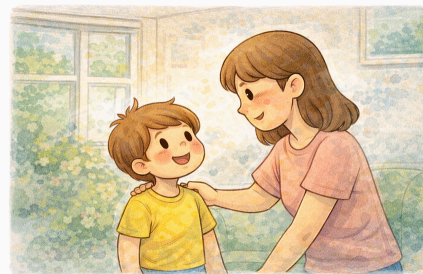

You don't have to figure it out alone.

That's okay

6

Tell a parent or trusted adult

They know what to do

7

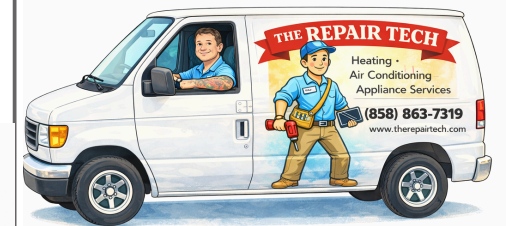

They call The Repair Tech

The Repair Tech is here to help

We fix it. You get back to normal

THE REPAIR TECH APPLIANCES

VOLUME 2 – APPLIANCES

(858) 863-7319

www.TheRepairTech.com

1

Like cool air, warm air,
and working appliances

At home, lots of things
help me feel
comfortable...

The heater keeps me
warm

The AC keeps me cool

The stove helps make
meals

The fridge keeps food
fresh

The dryer makes them
warm and dry

The washer cleans my
clothes

VOLUME 3 – MY HOME

(858) 863-7319
www.TheRepairTech.com

A grown-up can call The
Repair Tech

They help fix things so
my home feels good
again

But I am safe

And I am not alone

Sometimes... something
stops working

And that can feel
confusing or frustrating

2

7

8

6

5
Like tapping, buzzing, or machines turning on

I might hear new sounds

The lights or air might turn off for a short time

That is part of fixing the problem

6

4
Like the attic, garage, or outside

They may go into different areas of the house

I can stay with a trusted adult

And keep a safe distance from tools

7

3
This is how they do their job

They might wear a uniform and bring tools

When they are done, my home will feel better again

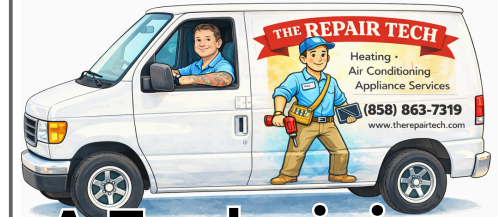

The Repair Tech is here to help

8

2
They are called a repair technician

Today, someone is coming to help fix something in my home

A Technician Is Coming to My Home

HEATING • VENTILATION
• AIR CONDITIONING
• APPLIANCES

The Repair Tech Story Book

Why are we reading this story?

At home, sometimes things stop working.
That can feel confusing, loud, or frustrating.
This story helps me understand what is happening
and reminds me that I am safe and not alone.

By creating this fanzine, you'll practice...

I can learn what to do when something breaks.
I can learn what to expect when help is coming.
I can learn that there are people who fix things
and make my home feel comfortable again.

Instructions: How to Make Your Fanzine

Step 1

Cut the borders of the photocopy.

Step 2

Fold the paper in half longways, following the line.
Unfold it.

Step 3

Fold the paper in half sideways, following the lines.
Fold it again in half sideways.

Step 4

Unfold everything. You should see 8 rectangles.

Step 5

Fold the paper sideways again.
Cut **ONLY** the center fold halfway (dashed line)

Step 6

Unfold slightly, then push the two sides inward to form
a small book. Fold it flat — now you have your fanzine!

Step 7

On each page draw the situation described.
